SUBJECT: Public Health Measures for Miriam Home Residential Users (RACs, RI, RTF, GUIMONT)

December 23, 2021

With the sharp rise in the number of COVID-19 infections, it is critical that we continue to take steps to protect the health and well-being of our community.

In addition to the government directives last shared with you earlier this week, please note the following new public health measures issued by the Quebec government which are being implemented across our sites. These include the following:

- It is strongly recommended that all caregivers be fully vaccinated.
- Only one caregiver may visit a resident at a time with a maximum of two caregivers per day.

Resident outings

Until further notice, all residents are strongly urged not to take part in outings.

Upon returning from outings, residents will be verbally screened (i.e., questioned about symptoms and contact), their temperature will be taken, and they will be given new PPE to wear as needed. If they are symptomatic, residents will be isolated (to the best of our ability) and tested as soon as possible.

Ensuring the well-being of our community is our top priority. Thank you for your understanding and support.

We wish you and your family all the best for the holiday season.

Mary Lattas

Director

Direction de la réadaptation et des services multidisciplinaires
